

VRI30 PORTABLE MICROPHONE BOOTH User Manual

Hello!

Welcome to the LyxPro™ family. This guide helps you get to know your new microphone booth a little better. For additional information and technical support, please contact our helpful team at info@lyxpro.com.

Intended Use

This portable microphone booth is designed to reduce room ambience when recording vocals and other live recording devices. Its walls consist of metal and foam panels that can be easily positioned behind your microphone to create a 'dry' recording in any environment.

What's in the Box?

- 1 x Microphone Booth
- 1 x Mounting Hardware Set
- 1 x User's Guide

Mounting Your Microphone

For true portability, this booth is really lightweight, and can easily mount to a microphone stand along with the included microphone mounting hardware.

1. Remove screw cap from support pole by turning counterclockwise.
2. Remove one washer while leaving other one on pole.
3. Stick threaded male end of pole through cutout in support bar, as shown.
4. Replace second washer and bottom by turning clockwise.
5. Position round hole in support bar onto microphone stand.
6. Attached microphone booth to stand, sandwiching support bar, as shown.
